

CLAUDE CERTIFIED DEVELOPER — FOUNDATIONS

30-Day Study Plan

AT A GLANCE

- ▶ 122 lectures of content
- ▶ 21 days learning, 9 days review
- ▶ 6 full practice exams
- ▶ Checkpoints on days 10, 17, 24

Note: this is a large course (122 lectures). If you can only study an hour a day, stretch the learning phase out to about 45 days rather than cramming — the day numbers below scale proportionally.

Phase 1 — Learn the Material (Days 1–21)

Days 1–2: Domain 1 — Agents and Workflows (15% of exam)

- ▶ Work through lectures 1–19, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.

Days 3–9: Domain 2 — Applications and Integration (33% of exam)

- ▶ Work through lectures 20–59, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.

Day 10: Domain 3 — Claude Code (3% of exam)

- ▶ Work through lectures 60–63, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.
- ★ Checkpoint (Day 10): take Practice Exam 1 and review every missed question.

Day 11: Domain 4 — Eval, Testing, and Debugging (3% of exam)

- ▶ Work through lectures 64–66, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.

Days 12–15: Domain 5 — Model Selection and Optimization (17% of exam)

- ▶ Work through lectures 67–86, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.

Days 16–17: Domain 6 — Prompt and Context Engineering (11% of exam)

- ▶ Work through lectures 87–99, taking notes on each lecture's key terms.
- ▶ Re-read the matching Cram Sheet entries before moving on.
- ★ Checkpoint (Day 17): take Practice Exam 2 and review every missed question.

Days 18–19: Domain 7 — Security and Safety (8% of exam)

- ▶ Work through lectures 100–109, taking notes on each lecture's key terms.

- ▶ Re-read the matching Cram Sheet entries before moving on.

Days 20–21: Domain 8 — Tools and MCPs (11% of exam)

- ▶ Work through lectures 110–122, taking notes on each lecture's key terms.
 - ▶ Re-read the matching Cram Sheet entries before moving on.
-

Phase 2 — Review & Practice (Days 22–30)

Days 22–24

- ▶ Re-watch any lectures flagged as weak during the checkpoints.
- ▶ Read the full Cram Sheet end to end; recite each acronym from memory.

Days 25–27

- ▶ Take the remaining full practice exams (you've used 3 of 6 so far).
- ▶ Log every missed question by domain to find your weakest area.

Days 28–29

- ▶ Drill your weakest domain: re-read its terms and re-take its questions.
- ▶ Aim to score consistently above passing on fresh practice exams.

Day 30

- ▶ Final readiness: skim the Study Companion + Cram Sheet only.
- ▶ Rest. Confirm exam logistics. Do not learn anything new today.
